7.4. Major: AUDITING

7.4.1. Objectives

To teach undergraduates to become bachelors in accounting who have a good political quality, virtuous character and health and are self-awareness of professional ethics to comply with the law.

We equip them with fundamental knowledge of accounting, financial auditing and operation-based auditing; moreover, our students are provided with supplementary knowledge of tax, financial analysis, economic law, business administration, computer skills and foreign languages so that they can adapt themselves to the existing context of globalisation.

Our graduates of auditing can work for independent auditing companies, state auditing agencies, or an internal auditing section in the company, and they can work as accountants, auditors, financial analysts or as tax and investment consultants, etc. if meeting demands for the existing management regulations of the job.
